### Mounting Position

- The Easy-Doc Bracket suggested mounting height from the Vehicle floor is 1280mm to the top set of holes pre drilled in the bracket. This is only a recommendation. The desired height can be adjusted to suit fleet preferences.
- Mounting Hole Centres are 140mm Width X 120mm Height.
- Recommended fixing bolts are M8 X 35mm Long.
- We can drill the Bracket to suit the required centres of your vehicles if required at the time of manufacture.

We can manufacture a bespoke bracket solution tailored to suit the exact needs of each ambulance service from fixed, to wall mount with an optional rotate system. Please enquire with your exact needs and let us find the perfect solution. We also have vast amounts of experience working alongside the Ambulance Builders.

For further information on bracket solutions for any of Zoll products please contact us.
