

Easy-Loc Mounting System for **ZOLL** M,E,R, X Series & Propaq Devices

Surface Mounting Bracket With Rotate

Part Number SES/ELOO1

“The extremely robust Easy-loc bracket “The extremely popular Easy-loc bracket has been designed to offer a quick locking facility when storing the defibrillator along with an easy release mechanism giving the user a fast release to suit any emergency. This durable bracket has been designed and tested to suit the high demands of the EMS environment. The Easy-loc carriage box is designed to mount the Zoll E, M, R or X Series Defibrillators. This bracket allows the user to rotate the device to have the perfect view of the screen anywhere on the vehicle. This surface mounting bracket allows the turntable to lock into a stow position to prevent the bracket moving when the Defibrillator is not in use. Handle colour or shape is optional to suit each service requirements. This comes complete as a kit with a Device Mounting Plate. Style of baseplate to suit dedicated device to be stipulated at the time of order.

Overall Dimensions = 295mm X 295mm X 73mm Max Height (Including carriage box).

Fixed Surface Mounting Bracket

Part Number SES/ELOO2

“The extremely robust Easy-loc bracket “The extremely popular Easy-loc bracket has been designed to offer a quick locking facility when storing the defibrillator along with an easy release mechanism giving the user a fast release to suit any emergency. This durable bracket has been designed and tested to suit the high demands of the EMS environment. The Easy-loc carriage box is designed to mount the Zoll E, M or X Series Defibrillators. The surface mounting bracket allows the Defibrillator to store in a fixed position where rotation of the defibrillator screen is not needed. These are ideal for RRV’s or ambulances with a small shelf along the trauma wall. Handle colour is optional to suit each service requirements. This comes complete as a kit with a Device Mounting Plate. Style of baseplate to suit dedicated device to be stipulated at the time of order.

Overall Dimensions = 290mm X 200mm X 55mm Max Height (Including carriage box).

X Series Fixed Wall Mounting Bracket

Part Number SES/XELO03

“The extremely robust Easy-loc bracket “The extremely popular Easy-loc bracket has been designed to offer a quick locking facility when storing the defibrillator along with an easy release mechanism giving the user a fast release to suit any emergency. This durable bracket has been designed and tested to suit the high demands of the EMS environment. The Easy-loc carriage box is designed to mount the Zoll X Series Defibrillator. The wall mounting bracket allows the Defibrillator to store in a fixed position where rotation of the defibrillator screen is not needed. These are ideal when wall mounting of equipment to utilise the vehicle space. This bracket is firmly fixed to the trauma wall. The fixing holes can be moved on our shelf to accommodate any existing mounting holes where original defibrillator or monitors have been mounted. This will ensure that your vehicle is still CEN compliant. This bracket also houses the power adaptor cable to charge the X Series. Handle colour or shape and cushion colour is optional to suit each service requirements. This comes complete as a kit with a Device Mounting Plate. Style of baseplate to suit dedicated device to be stipulated at the time of order.

**Overall Dimensions = 250mm X 280mm X 52mm Max Height (Including carriage box).
Backing plate overall height 300 mm.**

Sliding Tray Bracket with Rotate

Part Number SES/ELSTOO1 Tray Version Only

Part Number SES/ELSTOO2 Wall Mounted Version

“The extremely robust Easy-loc bracket “The extremely popular Easy-loc bracket has been designed to offer a quick locking facility when storing the defibrillator along with an easy release mechanism giving the user a fast release to suit any emergency. This durable bracket has been designed and tested to suit the high demands of the EMS environment. The Easy-loc carriage box is designed to mount the Zoll E, M and X Series Defibrillators. This product is very versatile and can be mounted virtually anywhere. Recommended mounting on a small shelf area at the side of the vehicle (**Tray Version**) or if the device is wall mounted at the foot end of the stretcher. This allows the user to extend the bracket 180mm forward over the stretcher and back to a locked stow position, saving the user having to stretch over and mount the defibrillator onto the bracket. This bracket allows the user to rotate the device to have the perfect view of the screen anywhere on the vehicle. This surface mounting bracket allows the turntable to lock into a stow position to prevent the bracket moving when the Defibrillator is not in use. Handle colour or shape is optional to suit each service requirements. Style of baseplate to suit dedicated device to be stipulated at the time of order.

**Overall Dimensions = 360mm X 345mm X 90mm
Max Height (Including carriage box Tray height).**
